

Direct Recruiters has been recognized as the relationship-focused search firm that assists Water Technology and Automation organizations with recruiting, acquiring and retaining high-impact talent for mission-critical positions. We have been a trusted partner for some of the most progressive companies in the industry.

FINDING TOP TALENT

Advanced technologies are transforming water treatment processes all over the world. Water treatment solutions today rely heavily on automated control systems for pumping, monitoring, filtering, and analyzing in order to increase productivity, quality, and cost reduction. Water Technology is driven by efficiency and our goal is to apply that same principle to your specific search for top talent. We streamline the overall hiring process, making it easier and faster, while keeping you informed every step of the way.

The DRI team is comprised of Senior Recruiters and Research Associates who have a thorough understanding of the Water Technology industry and current job market.

CORE VALUES

DRI's core values are our driving forces behind all that we do. We strive to meet our values in our relationships with clients, candidates and coworkers.

1. Respectfully tenacious
2. Team player
3. Positively impacts others
4. Solutions oriented

On a daily basis, we are in contact with executive management and hiring authorities looking to hire top professionals in the areas below:
