

Direct Recruiters has been recognized as the relationship-focused search firm that assists Robotics organizations with recruiting, acquiring and retaining high-impact talent for mission-critical positions. We have been a trusted partner for some of the most progressive companies in the industry.

FINDING TOP TALENT

Over the past few years, our Robotics search team has seen the industry evolve dramatically to meet emerging industrial demands. Robotics is a branch of engineering that deals with design, construction, operation and use of robots. By definition, Robotics is a complex discipline that can present unique challenges in acquiring talent with specific skills and backgrounds. Our firm brings years of experience and the know-how to help our clients acquire the talent necessary to thrive in the Robotics and Automation market. As Recruiters in Robotics, we understand that now more than ever, your company will require professionals with specific skill sets and proven track records.
